WARNING [EN]

For climbing and mountaineering only. Climbing and mountaineering are dangerous. Understand and accept the risks involved before participating. You are responsible for your own actions and decisions. Minors and others not able to assume this responsibility must be under the direct control of an experienced and responsible person.

KEY:

- Risk of serious injury or death
Risk of accident or injury
Approved use
Examination required

INSTRUCTIONS FOR USE

Read instructions for future reference. This pamphlet explains correct use and some common mistakes for the climbing equipment depicted in the illustrations.

Check the buckles and adjust them regularly on your figure. This Type C sit harness is intended to provide protection against falls while climbing or mountaineering. It is intended for a conscious body in a sitting position.

SIZING PRECAUTIONS

- 1. It is essential that you wear the correct harness size and that it fits you well. Before using your harness, hang it in from a safe place to ensure you've chosen the correct size.
2. The size designation and circumference range (in centimeters and in inches) of Black Diamond harnesses are located on the RN label on the harness waist belt.

CARE AND MAINTENANCE

Climbing gear must not come into contact with corrosive materials such as battery acid, battery fumes, solvents, chlorine bleach, antifreeze, isopropyl alcohol or kerosene.
After contact with saltwater or salt air, always rinse and dry textile products, and rinse, dry and lubricate metal products.

LIFESPAN, INSPECTION AND RETIREMENT

Climbing gear does not last forever. Inspect your gear before and after each use, and retire it when it fails inspection. Do not use climbing gear for more than 10 years after the date of manufacturing, even if unused and properly stored.

ADDITIONAL FACTORS THAT MAY REDUCE THE USEFUL LIFE OF YOUR CLIMBING GEAR

- Exposure to heat, solvents, fuels, battery acid or battery fumes
Damage and extreme conditions may shorten your equipment's useful life, and could require retiring the gear during its first use
If you have any doubts about the dependability of your gear, or after a serious fall, retire it.

STORAGE AND TRANSPORT

Store your equipment in a clean, dry, well-ventilated area. Do not store your equipment in a vehicle, as the heat and cold of the vehicle can damage the equipment.

CHOOSING THE RIGHT COMPONENTS

Choose ropes that meet EN 892 and carabiners that meet EN 12275, and choose other CE/UKCA certified mountaineering equipment that is compatible with this product.
